Aashish Paudel

PHP Laravel Full-Stack Web Developer
Kathmandu, Nepal · aashishpaudell122@gmail.com · +977 9816169203

Profile

Passionate web developer with hands-on experience in Laravel, PHP, API development, and database management. Skilled in building scalable applications and optimizing performance. Eager to contribute to impactful projects and grow as a backend developer.

Experience

Cloudworker — CloudFactory (Feb 2024 - Present)

- Contributed to Data Specialist and Flexi AI projects, integrating AI models with web applications.
- Collaborated in cross-functional teams to deliver scalable solutions.

Full-Stack Web Development Intern — Xdezo Technology (Oct 2023 - Feb 2024)

- Developed and maintained Laravel-based web applications, ensuring scalability and maintainability.
- Worked on RMS (SAAS), E-Learning, Attendance Management (SAAS), and TMS.
- Gained hands-on experience in API development, database optimization, and debugging.

Education

MSc. Computer Science and Information Technology (CSIT), Tribhuvan University (2025 – Present) Currently studying

Bachelor in Computer Science and Information Technology (CSIT), Tribhuvan University (2020 – 2025) 80.14%

+2 Science / 10+2, National Examination Board (2017 – 2019)

Skills

Laravel, PHP, REST API Development, MySQL, Database Optimization, JavaScript, Bootstrap, HTML5/CSS3, Data Structures & Algorithms (DSA), Git, System Architecture, Leadership, Teamwork

Projects

Grow (E-Learning Platform) — A course delivery platform for teachers and students where learning materials, enrollments, and access controls had to work reliably. Admins add teachers, assign courses, and students enroll and download notes. I helped shape the application around Laravel conventions, defined the core domain model, and implemented the essential user flows for course management and student access.

Attendance Management System (SAAS) — Role-based attendance tracking for organizations, with automated logs, reporting, and leave management across tenants.

Bhansha — Restaurant Management System — A full-featured SAAS restaurant platform with multi-tenant operations, table management, digital menus, billing, and order workflows.

Sajilo Rent — Rental Management System — A streamlined web application for managing rental properties, tenants, agreements, and payment tracking. Research project awarded by QAA/EMIS.

TMS (Task Management System) — Operations tooling delivered during the Xdezo internship for tracking tasks, assignments, and operational records on a Laravel stack.

Certificates

Full-Stack Web Development with PHP Laravel, Xdezo Technology (Internship Program)

Mobile Repairing Technical Training, Technical Training Institute

Sajilo Rent Research Award, QAA / EMIS

Leadership

Treasurer — Code for Change Pokhara (2023 – 2024)

Class Representative (CR) — Code for Change Pokhara (2022 – 2023)

Mentor for junior developers — Community (Ongoing)
